PROFILE

Aspiring Computer Science Engineer with a strong foundation in programming, and am an MERN Practitioner. Passionate about solving real-world problems through technology and eager to apply my skills in coding. Seeking an opportunity to contribute and grow in a dynamic tech environment.

PROJECTS

LAPIFY.COM   Apr 2025 - May 2025

Developed a responsive second-hand laptop selling platform aimed at helping students purchase affordable, well-maintained laptops.
- Built using React.js, HTML, CSS, JavaScript, and Vite , and Mongo DB .
- Focused on user-friendly UI and seamless product listing and browsing experience.

SILO-DISPATCH   July-2025

Developed SiloDispatch, a logistics platform for order batching, driver assignment, OTP-based delivery, and UPI/COD payment tracking.Used React, React Native, Node.js, FastAPI, Supabase, PostgreSQL, Razorpay, and Twilio for full-stack implementation.
- Implemented K-Means clustering for batch creation from CSV, real-time driver updates, and secure payment reconciliation.

E-COMMERCE   Jun 2024 - Jul 2024

Designed a user interface for an E-Commerce product booking platform using Figma.
- Focused on creating an attractive and intuitive user flow for product selection, cart management, and order placement.
- Applied modern UI/UX principles to enhance usability and user engagement.
